

CPR and First Aid lost or stolen cards

Going forward from this last safety class in January 2016, we will not be issuing CPR / First Aid cards to the students.

When students complete their respective class, they will get electronic versions of their card for their class. At the beginning and end of those classes, they are told to keep the electronic version they get from the Red Cross as a photo on their phone (or they can print it for themselves) as proof of their course participation.

We will continue to track the date they took the class as well does the Red Cross. Their card has a bar code scan and individual code on the card. They can scan it and get their data right from the Red Cross.
