Teaching Philosophy: Know your audience. Some classes and students will move faster than others. Cover the material accordingly.

What you like most about teaching: It is a win, win. The students learn a lot and I do to. It keeps my knowledge fresh and up to date. The students become better linemen and so do I.

What else the student would want to know about you: I am married and a father of three young children. I am forever grateful to Local 9 and all the benefits it provides for my family.
