Teaching Philosophy: The more you know...the better! Keep learning each day, keep an open mind and you can do anything you want to.

What you like most about teaching: The ability to pass on what I have learned over the years. There is more than one way to do something and each share that with others.

What else would the student want to know about you: I want them to know I realize that not everyone knows everything. Everybody is equal to me. I won't hold it against you. If you have a question, just ask. If you have a suggestion, say it. The only stupid question is the one not asked. In the field I am not only a boss, I am your friend. We can work together and do anything with teamwork!
