

Steve Hertzog

Years as a Local 9 Member: 12 years

Years Teaching at Local 9 Training Center: 2 years

Related Training/Education: Bachelor's in science (health management).

Teaching Philosophy: Take pride in everything you do because it reflects on you and who you are as a person. Also, don't be afraid to ask questions, you are only as smart as the people around you.

What you like most about teaching: Being able to pass along the knowledge and experience that I have learned from my work, most importantly from others.

What else would the student want to know about you: I might be teaching directional boring and have many years of experience with it but I have done pretty much a little bit of everything our trade works on, Fiber optics, streetlighting etc.
