

Tal McGregor

Years as a Local 9 Member: 23.5 years

Years Teaching at Local 9 Training Center:
2 years

Related Training/Education: Two and a half years at DeVry Institute of Technology, four years at Apprenticeship IBEW Local 134, four and a half years at “A” Journeyman Local 134.

Teaching Philosophy: I feel as an Instructor, in order to be effective, we need to be aware that every student learns differently and not assume the student knows the curriculum. We will then be able to teach the curriculum effectively.

What you like most about teaching: The most satisfying part about teaching, is when the “light bulb turns on” after a student has been struggling with what we are teaching that day. It is also a pleasure seeing the students in passing expressing their appreciation.

What else would the student want to know about you: I want the students to know I am committed to making sure they are prepared for the jobs they have chosen to do.
